

Agility Series

Point-of-Care Carts

When an essential work tool no longer works against but with you, it becomes more than a tool. It becomes a partner.

The Medscape Agility Cart series was designed by world-class engineers in collaboration with healthcare professionals. The result is a truly innovative point-of-care cart that features a space-conscious design with effortless movement and height adjustment, nearly infinite adjustability of accessories, and an innovative five-star base designed with efficiency and safety in mind.

Draw Cart

mobile

Move effortlessly through crowded hallways with your workstation leading the way and glide easily into your patient's room. You're ready to administer compassionate care because your energy was saved for caregiving and not wasted on hauling an unstable and heavy cart all day.

Technology Behind the Story

- Small footprint for easy maneuvering with enough space for a comfortable and efficient work area
- 24"W x 23.75"D work surface vs 27" Diameter footprint
- Innovative five-star base exceeds current Joint Commission guidelines for cart stability
- Unique arrangement of base legs provides room for more natural gait when walking
- Inverted base legs and low center of gravity provide unsurpassed stability
- 4" double casters move quietly and smoothly over the changing floor surfaces in any facility
- 2 casters lock for safety

Cart with Locking Drawer

Large divided work surface

Nearly infinite placement of accessories

Easy-to-use drop-and-lock accessory system

Integrated storage caddy
(Not available on Laptop Cart)

Foot-pedal activated height adjustment

adjustable

Effortless multi-tasking lets you provide compassionate care. With Agility point-of-care carts, you are able to comfort a patient with one hand while adjusting the height of your work surface with the other. It's all so easy that your full attention can be focused on your patient and they never notice that you're still working.

Technology Behind the Story

- Smooth-moving pneumatic mechanism allows nearly effortless height adjustment – simply activate by pressing foot pedal and apply gentle pressure up or down with your fingertips
- Work surface height adjustment from 30" to 42"
- Large divided work surface and storage caddy help keep items organized and easily accessible
- Nearly infinite placement of accessories
- Easy-to-use drop-and-lock accessory system allows for maximum efficiency and custom configuration

Cart with Shelf Bin

Advance-Engineered Casters for Superior Performance
The five twin-wheel casters are designed specifically for use in a healthcare environment. The high-grade polyamide center with polyurethane tread and two precision ball bearings in the swivel head offer outstanding roll-performance.

Soft rounded edges

Full-extension locking drawer

Inverted five-star base exceeds current Joint Commission guidelines for cart stability

secure

Your trusted point-of-care cart can bear a heavy load and still glide effortlessly over any terrain it comes across – even fully loaded for an entire day's rounds. It doesn't tip or wobble. The soft rounded edges won't puncture your gloves or snag your scrubs. And the full-extension locking drawer keeps your expensive supplies and confidential patient information secure and out of sight.

Technology Behind the Story

- Inverted five-star base creates low center of gravity for unsurpassed stability
- Holds 200lb dynamic load; work surface holds 30lbs
- Heavy-gauge steel accessories and drawer/shelf have round edges to prevent tearing of gloves and garments
- Wood-free construction eliminates cross-contamination and allows for easy cleaning
- Premiere full-extension locking drawers for unequaled performance and durability
- 2 locking casters

Laptop Cart

**ML7285
